

**Dear Passenger,**

**My name is Susana Mendes Silva and I am a visual artist. I was born in Lisbon, and I can remember travelling in this elevator with great excitement and delight ever since I was a little girl. When I was invited to intervene in the Santa Justa Lift, I noticed there were thousands of photographs, videos and texts published on the Internet by people visiting it every year.**

**Look around. See how people take photos or film the interiors, the landscape, friends and family travelling with them... That is why I created a blog, where we can collect those memories. It is also an archive of feelings towards this elevator; of the affection felt by those travelling in or visiting it.**

**This archive is being constructed continuously with your contribution. Please send your photographs, videos, texts or drawings on your Santa Justa Lift experience.**

**I hope to hear from you soon.**

**Thank you,  
Susana**
